

September 2017

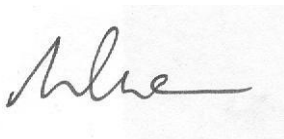

Dear Parent/Carer

We are pleased to inform you that we will be hosting an apprenticeship fair at Longsands Academy on Wednesday 11th October as part of our ongoing support for students as they decide upon their post 16 destination. The event will be taking place during ECM time.

The apprenticeship fair is a CEIAG (careers education, information advice and guidance) event and students will have the chance to talk to a range of professionals from various business sectors and engage in the interactive displays they have to offer. This event is part of the Academy's wider focus on careers education, which aims to broaden students' horizons by providing impartial advice and guidance to open their minds to the increasing number of paths that are becoming available to young people at different stages of entry. The event will offer the chance for students to engage with both local and national employers and find out more about the possible career paths that apprenticeships can offer.

We would encourage you to discuss the event with your son/daughter. If you would like more information about apprenticeships then please visit the academy's dedicated careers pages or www.getingofar.gov.uk.

Yours sincerely,

Mr N D Owen
Senior Assistant Headteacher (KS4)

Mrs K Martindale
Head of CEIAG and ECM
